## Yorkshire Button Class

I learned to make these buttons from Peg Cherre from the Weavers Guild of Rochester and so, not to infringe on any of her intellectual rights, I refer you to her website for instructions for making these buttons and the templates. She calls them Isa's Yarn Buttons and provides excellent photos and instructions there. The site is:  
<http://secondwindjewelry.com/jewelry-weaving-blog/2011/02/how-to-make-a-yarn-button/>.

**You will need to make your template BEFORE the class** so that you can just spend time weaving your buttons. I suggest using a flat, soft, plastic lid for the template (like from a take-out soup container). Use a diameter of 2 to 2½ inches, but in the future you can make your buttons in any size. Be sure your notches are about ¼" deep and number your sections as she suggests for ease of directions. ***Only go through Step 5 of the website instructions, Sue will show us how to make the actual button.***

**The supplies you will need to bring are:** your template, scissors, a tapestry needle with an eye big enough to accommodate your yarn, yarn, and something to insert into the button. For yarn, I suggest something like a sock weight (the finer your yarn, the longer it will take to make the button but anything too bulky or textured will not work well). Variegated yarn looks especially sharp. You will need at least 6 yards for one button. For your insert you can use a flat button, a nickel or any washable round disc about ½ of the diameter of your template. If you want a rounded button, you can use a cotton ball or other stuffing material.

If you have any questions before the class, feel free to contact me.

See you soon!

-Sue Szczotka
